Course Description

Biblical Worldview is a one-credit high school course that teaches the basics tenets of the Christian faith, the metanarrative of the Bible and how to live out the Christian faith individually and in community. It is meant to deepen students' knowledge of the biblical worldview through critical thinking and collaborative strategies. It will also serve to strengthen students' ability to engage in further comparative worldview studies. Students will learn what the Bible has to say about life's biggest questions: Who is God? What story has He been unfolding in the world? Where do you fit in?"
